February 13, 2018

Jim Burns, Chair
Carver County Planning Commission
600 East 4th Street
Chaska, MN 55318

Dear Chair Burns and Members of the Planning Commission:

Our family has recently learned our festival will be able to operate in its current location, adjacent to Canterbury Park, in Shakopee for the 2018 season.

For this reason we are submitting this letter to formally withdraw our application (#:PZ20170051) for a conditional use permit for festival relocation to 7410 Hwy 212.

Our family is thankful to be operating adjacent to Canterbury Park for 2018. Our family is aware of the future progress and development at our current location and for that reason may choose to apply for a similar CUP request at a future date. We kindly request your patience and understanding if and when we need to go through this process in the future.

Sever's Fall Festival and our respective families would like to thank the staff, elected officials and communities of Dahlgren Township and Carver County for the time and consideration involved with this application.

Respectfully,

Mitch Michaelson
