DAFNI COST SHARE

DAFNI COST SHARE

- Planning on working with MN Native Landscapes
- Removing box elder trees on west edge of pond
- Wetland will be excavated for a more natural look and planted with three seed mixes
 - Sedge Meadow, Wet Prairie, and Emergent Mix
- Will be scraping 1' to 2' of the pond for stockpiling to control reed canary grass
 - Logs will be under and surrounding the stockpiles (hugelkultur bed) and planted with pollinator seed

DAFNI COST SHARE

DAFNI COST SHARE

DAFNI COST SHARE

- Total Costs
 - Estimated at \$13,750
 - Dafni will be doing tree removal and hugelkultur hill instead of silt fences for a cost savings of \$4,880
