

Things to Know Before you Begin

Child and Teen Checkups are enhanced well-child checkups for children under the age of 21 who are enrolled in Medical Assistance (MA) or MinnesotaCare.

These checkups are important for your child's health. They can help find and treat health problems before any lasting harm is done and help your child to reach his or her full healthy potential.

Before Your Appointment

- When making an appointment, be sure to ask for a Child & Teen Checkup
- Take a copy of your child's immunization record
- Bring a list of medications your child is taking
- Make a list of questions you want to ask
